

AMENDMENTS TO THE SPECIFICATION:

Please amend the paragraph starting at page 5, line 18, of the specification as follows:

The above receiving means may be adapted to receive an encrypted content, encrypted preview sub license, encrypted actual-viewing sub license and a license information file including license type identification information for discriminating between the encrypted preview and actual-viewing sub licenses, as [[a MPGE-2]] an MPEG-2 transport stream, from the server over the network.

Please amend the paragraph starting at page 8, line 4, of the specification as follows:

The above second supplying means may be adapted to supply an encrypted content, encrypted preview sub license, and encrypted actual-viewing sub license and a license information file including license type identification information for discriminating between the encrypted preview and actual-viewing sub licenses, as an [[MPGE-2]] MPEG-2 transport stream, to the content processing apparatus over the network.
